

## Please Read Before Installing Drum Master Products

1. Open the Infinite Player folder located on the Sonic Reality Program Disc.
2. Double Click the “Infinite Player Setup” to begin installation. Follow the on screen instructions to install the Kontakt Player 2 Infinite Player.
3. After you’ve fully installed the Infinite Player plug-in you are now ready to install the Patches and sounds.

*Note: Please take a second to copy these two files onto your computer from the “Sonic Reality Program Disc”:*

1. *The Infinite Library Installer*
2. *This Installation Guide (for quick reference during installation)*

4. Double Click on the Infinite Library Installer icon on your computer to start.
5. Next locate the “Drum Masters/Drum Masters Patches” folder on the Sonic Reality Program Disc. Inside this folder are your patch zips for Drum Masters: Silver, Gold and Platinum. ONLY drag the zip for the product you purchased onto the Infinite Library Installer application launched previously. Remember! Installing patches you don’t have the samples discs for will result in Missing Sample errors when trying to load a Multi or Instrument. **ONLY install the Drum Master version you purchased.**
6. Eject the “Sonic Reality Program Disc” from your computer and insert the Drum Masters Library Discs labeled with “Kits” or “Grooves” (one at a time). Here is a list of which sample discs come with each Drum Master products: Silver, Gold or Platinum.

	Silver	Gold	Platinum
Stereo Disc 1 - Kits	x	x	x
Stereo Disc 2 - Grooves	x	x	x
Stereo Disc 3 - Kits			x
Stereo Disc 4 - Grooves			x
Stereo Disc 5 - Grooves			x
Multitrack Disc 1 - Kits		x	x
Multitrack Disc 2 - Kits		x	x
Multitrack Disc 3 - Grooves		x	x
Multitrack Disc 4 - Kits			x
Multitrack Disc 5 - Kits			x
Multitrack Disc 6 - Grooves			x
Multitrack Disc 7 - Grooves			x

*Note: On each disc you will see many zip files. DO NOT UNZIP ANY OF THE LIBRARY ZIPS!*

7. Drag all of your **Drum Masters Library Zips** from each disc onto the Infinite Library Installer. For your convenience this will install your Drum Masters Library Zips into the proper hierarchy. (Doing this on your own is not recommended due to complex folder structures, etc.)

*Note All Windows Vista Users: For the Infinite Library Installer to function properly please follow these simple instructions for “Disabling Vista's User Access Control (UAC)”.*

*To do this:*

- 1. Run msconfig (from the start menu)*
- 2. Go to the "Tools" menu and select "Disable UAC"*
- 3. Press "Launch," close the msconfig window, and restart your computer.*

*\* For alternate methods of sound installation for Vista users please check <http://www.sonicreality.com> or contact us at [support@sonicreality.com](mailto:support@sonicreality.com) for updates.*

8. Wait for Infinite Library Installer to install ALL of the library zip files. (There is NO time-remaining counter on this app, the Library Installer will give you a message when installation is finished. Please note that installation of multiple gigabytes of data such as this can take up to several hours in total to install.)

9. Once finished, launch the Infinite Player Kontakt Player2 (either as stand alone or as a plug-in within your DAW).

10. Please read the PDF Manual that was included with the Sonic Reality Program Disc for more information on using your Infinite Player and Drum Masters products.

*Note: If you try to load a kit and it says “Missing Samples” it is likely because one or more of the “Drum Masters Library Zips” did not get installed. You can check this by dragging and dropping any of the library zips onto the Library Installer and it will either tell you it has already been installed or it will proceed to installation process of that zip. You must be sure to drag and drop all of the library zips and let them install to their completion.*
